

This is the document you need to turn in along with you're graded exam.

---

Problem number you are redoing

Previous scored on this problem

---

The details for recovery are as follows:

1. You may choose any problem from the exam and redo it.
2. The points you earned *on the exam during the exam time* will be replaced with the points you earn on this resubmission. For example, if you earned 9/15 on problem 7 and resubmit that problem earning 14/15 then your exam grade will increase by 5 points.
3. You're exam score can only improve.
4. Since you are replacing the previous score, you must resubmit your old exam along with the corrected solutions.

**Fill in the following table**

Show **all** of your work on this recovery and answer each part fully in the given context.

*Please* staple your assignment!
